Dear Madam, Sir,

In my position of Experience Manager I am end-responsible for purchasing the domes we have bought from Polidomes Int. for the Volvo Ocean Race 2014-15. We have been working with our own team to build and break the domes around the world during this race and have been trained by Polidomes Int. pre-race.

I confirm that we have dealt with 2KB SC (Polidomes Int.) since 2014, and from this period onwards they have provided us with excellent support, on both technical and communicational level, all related to the purchase of our two geodesic dome structures.

Their professional can-do attitude and 24/7 support have led to a good relation between our companies and have been very helpful. The dome structures have been the 'house' of an interactive race show and cinema and have welcomed thousands of people around the world while being entertained. Especially the shape of the domes and the black out PVC canvas we used, have made it become one of the best and most visited Experience elements of this race.

I can confidently recommend Polidomes Int. as a solid and reliable supplier, and experts in their field.

Yours faithfully,

Quérine van Osch  
Volvo Ocean Race Experience Manager
